

1nService Member Announcement

October 20, 2011

Atrion Corporation is a Flemington, NJ based reseller of IT products and services to the enterprise business community. Atrion maintains partnerships with leading hardware and software companies including Hewlett-Packard, Oracle/Sun, EMC, IBM, Dell, VMware, RedHat and Symantec. These relationships allow them to design best of breed solutions specific to their customer's goals.

Atrion offers an all-inclusive, turn-key approach to it's customers that begins with an assessment of their current IT infrastructure, the creation of short-term solutions and long-term IT plans, project management and engineering services associated with post-sale integration, testing and implementation phases, and the contracting of asset management and support programs.

Discussing their new member status, Atrion President Gary Hazard stated, "We're very excited to be part of an IT community that shares its strengths, expands its capabilities, and develops new revenue opportunities for all participants. There is strength in numbers!"
